

# ISLAMIC REPUBLIC OF IRAN

Verification of Conformity for goods  
destined to Iran

## ISIRI PROGRAM

The Institute of Standards & Industrial Research of Iran (ISIRI) is responsible for controlling the quality of goods entering Iran.

In this regard, ISIRI has accredited Cotecna, as a testing, inspection and certification company, for the verification of conformity of certain categories of goods exported to Iran.

Cotecna was recently granted an extension of its scope of accreditation to include most consumer goods.

## VERIFICATION OF CONFORMITY SERVICES

Cotecna provides tailor-made services to assist exporters throughout the entire certification process to demonstrate that their shipments are in conformity with Iranian or International Standards recognized by Iran:

- Sampling and testing of consignments in accredited laboratories (17025 accreditation by ILAC members)
- Physical inspection in the exporting country
- Documentation verification
- Issuance of a Certificate of Inspection (COI)

## OTHER SERVICES

Cotecna can also issue commercial certificates such as "Inspection Certificates" (IC) which are issued based on the scope of work and instructions received by Cotecna's client; this is often a requirement for a letter of credit.

## COTECNA HELPS YOU SAVE TIME AND MONEY
